

Beech Green Nursery  
end of year parent/carer  
questionnaire  
July 2019

31 replies from 78 children (40% response rate)

We have encouraged your child to improve their self confidence and social skills this year. How have your child's confidence and social skills developed?

Answered: 31 Skipped: 0

] [REDACTED] will now ask for things and say if something is not right. [REDACTED] will ask "lots" of questions as and when he wants too. [REDACTED] will speak to other children rather than just loan playing as he did in his previous nursery. Getting [REDACTED] a placement at Beech green pre school is the best thing I've done so far. I just wish I had done it sooner and prevent what [REDACTED] went through in a previous nursery setting.

] [REDACTED] has grown in confidence so much over the past year and has made lots of new friends. We couldn't be happier at how he is progressing.

During my child's time at the nursery she developed her social skills. She can confidently play in groups, on her own and take turns during games.

██████ often comes home full of excitement to say that he has been snack helper or achieved something on his own at school which he may not ever have done before at home. The prospect of a 'wow' voucher is also always a good bargaining tool for him to try and do new things by himself at home. Socially it has been nice to see him develop friendships with various children outside of our direct family circle and is always lovely when we see someone outside of the setting and they are pleased to see each other.

██████ used to shy away behind everyone else, she still has moments of this, but she has more confidence to speak out now.

[REDACTED] has always been a very confident little girl, but I've noticed with help from all of her nursery teachers she's super confident! Her first day at big school she was super excited and I feel that's down to the nursery getting her use to the surroundings of what stage is next.

Our child's confidence and social skills have improved by the opportunities and experiences that he has been exposed too whilst at the setting.

] I am a massive fan of using tapestry and seeing their progress on a regular basis through that. It's wonderful to be able to see what Z [REDACTED] has been up to soon after he has done it. Parents afternoons are always great and the information is always well presented in a friendly but professional way. I also love that staff are always happy to share snippets of information with us at the end of a session or when we drop off in the morning.

I liked the tapestry updates, the parents evenings were really helpful (did not think these would be done until primary school).

I love the regular updates and photos on tapestry. It is lovely to have a record of their achievements while at nursery. I also like being able to look through the photos while waiting to collect or dropping them off at nursery. It's nice for my son to be able to point out the photos of him and for him to tell me what he has been doing and also about the friends he's made.

] Tapestry website helps to be informed about all of what [REDACTED] has got up to and there is always a message to say how well she's done and how she does it which I think is fab. But also it's lovely because if you want to talk to a teacher to see or have questions no matter how busy they are, they always have 5 minutes to spare.

Thinking about your child's Tapestry Journal now. Has this been a positive addition to your time with us?

Beech green has not only helped [REDACTED] they have also helped me in many ways! Even when times was hard with anxiety I got nothing but support from all of them and it showed me how amazing the nursery was! I can't wait to see the progress from [REDACTED] M [REDACTED] when she starts and with all the staff being so reassuring it's made it a lot easier for me to be able to get [REDACTED] into nursery as her speech isn't so good but I feel the staff will be amazing with her and she will be as confident as what [REDACTED] is by the end.

I want to thank u for your time and patience that u have given [REDACTED] as he is one of the eldest in his group he a little bit more activity and stimulating than some of the younger ones
