Beech Green Nursery

Tapestry Learning Journey – User Guide

Introduction

All children attending Beech Green Nursery have a personal on-line Learning Journey which records photos, observations and comments, in line with the Early Years Foundation Stage, to build up a record of your child's experiences during their time with us.

Thank you for giving us your email address. We have set up a Tapestry account for your child.

Where do I start?

Go to https://eylj.org on your computer, or if you have an iPhone or iPad, visit the iTunes store and download the Tapestry app from the Education section (search for TapestryMobile).

Login using your email address and the password below. **We strongly recommend that you change your password on your first visit.**

CHILD	
EMAIL	This is the email address you gave us to set up your child's Tapestry account
PASSWORD	

Changing your settings

On the computer

At the top right of your screen you will see your name, and selecting this will give you the option to 'Edit Preferences'. Choose this option and you will be presented with a screen giving you the option to change your email address and password.

You also have the option to receive an email whenever a new observation is added to your child's Learning Journey – just tick or untick the relevant box if you would like to change this setting.

On iPhone/iPad

To change your settings on the iPhone/iPad app, click the 'cog' button on the bottom right hand side of the application. This enables you to change password and/or email address.

Viewing my child's Learning Journey

Once logged in, you will see your child's observations on your home screen in a list – selecting any one of these will open up the observation for you to look at. You may add comments in the box at the bottom of the observation if you would like to - and we would love to receive such comments!

Adding an entry to my child's Learning Journey

Choose the 'Add Observation' option (or the 'plus' icon on your iPhone/iPad) and add the relevant information in the boxes on screen. Photos and videos may be uploaded by choosing the 'add media' option. When you have saved your observation, you may go back to the home screen at any time by choosing 'home'.

Let us know how you get on!
